

EMERGENCY RESPONDER TRAINING

A Seminar for Firefighters, Police, 911 Operators and Emergency Management Personnel

The public safety officer is typically first on the scene when utilities are damaged, whether in response to a downed power line due to a vehicle accident or an excavator digging into a natural gas pipeline. Make sure you're registered for one of Puget Sound Energy's 2011 Emergency Responder Training sessions. This interactive half-day course includes:

- A live demonstration of the characteristics of natural gas and high-voltage electricity
- How to identify and manage a variety of emergency situations involving PSE facilities
- An overview of PSE's response coordination and procedures

Classes are being held on the dates listed at the following locations:

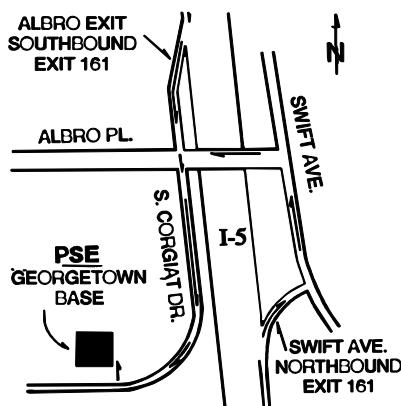

SEATTLE

8:30 a.m. — 12:30 p.m.
Puget Sound Energy
Georgetown Base
6500 Ursula Place S.

Friday, March 25

Monday, May 23

(No further training will be held at this location for remainder of year while facility is being renovated.)

TACOMA

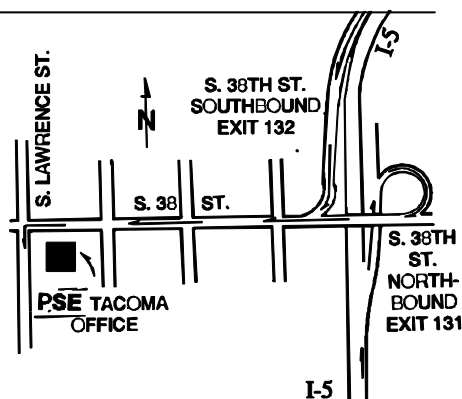

8:30 a.m. — 12:30 p.m.
Puget Sound Energy
3130 S. 38th Street

Wednesday, March 30

Thursday, May 26

Thursday, July 14

Thursday, Sept. 29

Space is limited. Please make your reservations no later than five days prior to the day of the session. You can register these ways: e-mail to dennis.smedsrud@pse.com or call 425.462.3324.

If you or anyone else in your department would like to receive these announcements **via e-mail**, provide us with an e-mail address by sending a message to: dennis.smedsrud@pse.com, with the subject line, **ERT Mailing List**.
